WolfTrack 7.0 User Guide

Introduction

WolfTrack 7.0 is the ultimate career search platform designed to optimize your internship and job-hunting process. With a user-friendly interface and powerful new features, WolfTrack ensures you stay organized and efficient as you navigate the complexities of your career search. From building personalized resumes to preparing for interviews, WolfTrack is your all-in-one solution.

Feature Summary

- **Set Daily Application Targets**: Set specific goals for how many applications to complete each day, helping you stay on track.

- **Track Applications**: Monitor all your job applications, set deadlines, and receive updates on application statuses.

- **Analyze Resume**: Upload your resume for an in-depth analysis and score to understand areas for improvement.

- **Job Search**: Enter desired job titles to view current job openings.

- **Skill Check**: Automatically extract required skills from job descriptions to better align your resume.

- **Resume Suggestions**: Get AI-driven feedback to strengthen your resume, focusing on areas that need attention.

- **Resume Management**: Easily manage, download, or send your resume whenever needed.

- **Resume Builder**: Dynamically create and customize resumes using a built-in LaTeX playground (similar to Overleaf), allowing for advanced formatting and professional output.

- **Job Recommender**: Leverage AI to get personalized job suggestions based on your resume content.

- **Job Application Tracking**: Add and manage job applications with details such as company name, location, job position, salary, and current status.

- **Job Match Analytics**: See how well each job listing matches your uploaded resume with a percentage score, helping you prioritize applications.

New Features in WolfTrack 7.0

1. **LaTeX Resume Builder**:

   - The resume builder has been upgraded to include a LaTeX playground, similar to Overleaf, which allows you to edit and format your resume using preloaded LaTeX code. This feature provides more flexibility and precision in formatting your resume, creating a professional look.

   - **Key Benefits**:

     o Seamlessly format resumes with LaTeX.

     o Use preloaded template to quickly start building your resume.

     o Save multiple versions of your resume with easy version control.

2. **HTTPS Support**:

   - WolfTrack now fully supports HTTPS, ensuring secure communication between the platform and your browser, protecting sensitive user information.

3. **Online Chat with Chatbot for Interview Prep**:

   - Engage in real-time chat with a dedicated chatbot designed to help you prepare for interviews. The chatbot offers personalized feedback, mock questions, and tips for improving your interview performance.

4. **Interview Preparation Resources Tab**:

   - A new tab has been added to your dashboard, providing access to a wide range of interview preparation resources. These include sample interview questions, advice on answering common questions, and tips for various industries.

5. **Job Match Analytics**:

   - For each job displayed, WolfTrack 7.0 shows how well the job matches your uploaded resume. A percentage score is provided, making it easier to focus on the roles that align most with your qualifications and experiences.

6. **Advanced Job Search API**:

   - WolfTrack 7.0 features an advanced API that aggregates job listings from major platforms such as LinkedIn, Indeed, Glassdoor, ZipRecruiter, Monster, and other public job sites. This API ensures that you have access to the most comprehensive and up-to-date job opportunities available across the web.

7. **Enhanced Student Dashboard UI**:

   - The student dashboard has undergone a complete overhaul. The new interface is cleaner, more intuitive, and features advanced tools for managing job applications, resumes, and preparation tasks. The updated UI ensures a smoother experience, making it easier for students to navigate the platform.

Navigating the WolfTrack 7.0 UI

Landing Page

Upon visiting WolfTrack 7.0, you will be greeted with two primary options:

- **Login**

- **Signup**

Signup

To register as a new user:

- **Standard Registration**: Fill in the required details manually.

- **Google Signup**: Use your Google account for quicker registration.

Admin Privileges:

1. Review and comment on resumes.

2. Send feedback to students via email regarding their resumes.

Student Privileges:

1. Upload an existing resume or create a new one dynamically using the LaTeX Resume Builder.

2. Track job applications and receive personalized job suggestions through AI integration.

3. Access detailed job match analytics to see how closely jobs align with your resume.

4. Search for jobs based on tailored criteria.

5. Receive AI-based personalized feedback on resumes.

6. Check the required skills for jobs and enhance your resume accordingly.

7. Engage with interview preparation resources and chatbots.

Resume Builder in LaTeX Playground

WolfTrack 7.0 introduces an advanced **LaTeX Resume Builder**, which allows users to input personal details and generate a formatted resume using LaTeX. This builder provides a navigation link to Overleaf, enabling the creation of professional resumes with precision formatting. Go to Resume Builder and load or enter your details andclick on Overleaf for LaTex button to view LaTex code for resume.

Features:

- Dynamic resume building with preloaded LaTeX code.
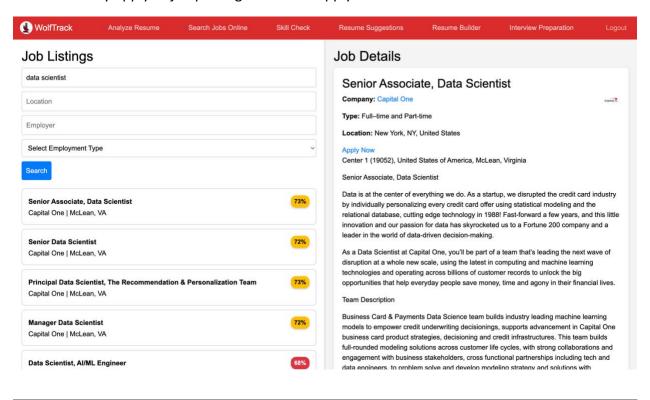

- Store multiple versions of your resume.

Job Search with Advanced API

WolfTrack 7.0's enhanced **Job Search API** brings job listings from all major job boards like LinkedIn, Indeed, Glassdoor, ZipRecruiter, and Monster, among others. This provides you with an extensive range of job opportunities, ensuring you don't miss out on relevant openings.
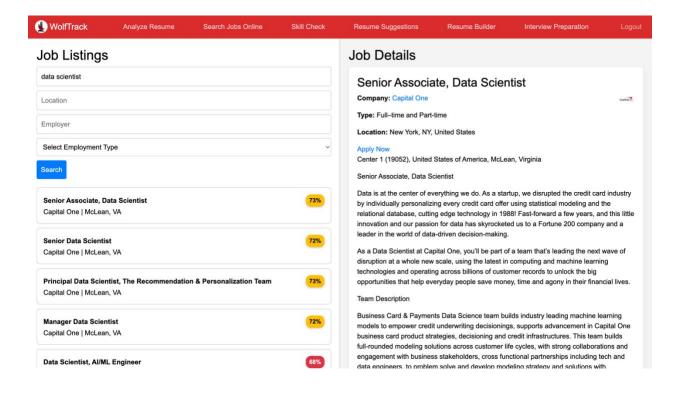

Key Benefits:

- Access job listings from multiple platforms in one place.

- Filter jobs by your desired criteria, such as job title, location, employer or employment type (Intern, Contractor etc.).

- Directly apply to job postings with the "Apply Now" button.

Job Match Analytics

For every job listing, WolfTrack 7.0 now displays a **Job Match Analytics** score, which indicates how well your uploaded resume matches the job description. This helps prioritize applications based on fit, so you can apply to the roles most relevant to your qualifications. Upload your resume on student dashboard and click on 'Search Jobs Online' to view the match percent.

Interview Preparation and Chatbot

The **Interview Prep Chatbot** is an interactive tool that guides you through mock interview scenarios, providing feedback and offering suggestions for improvement.
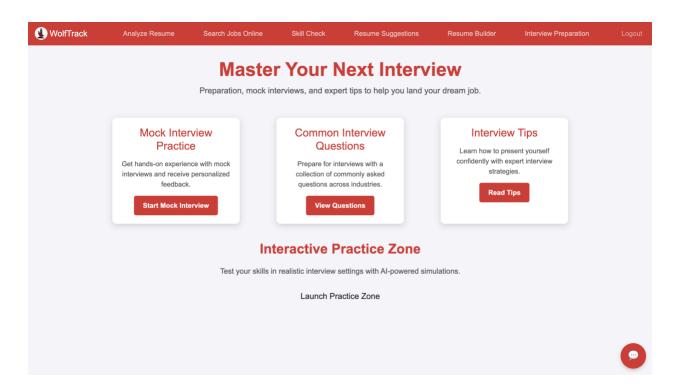

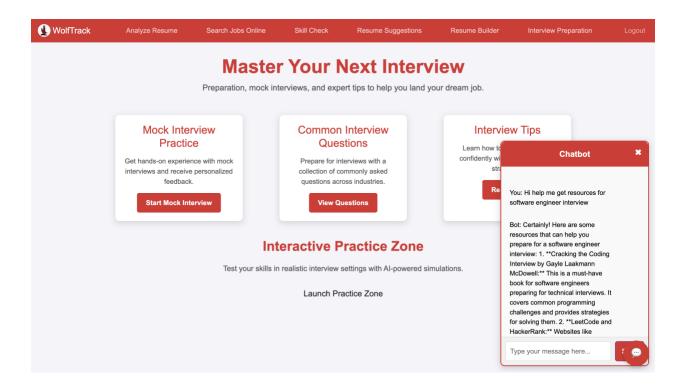

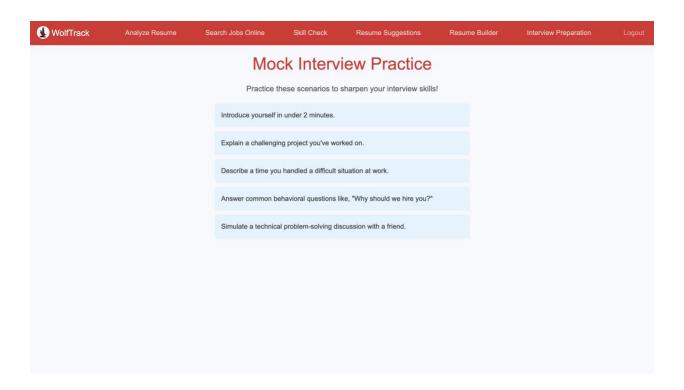

Features:

- Practice answering common interview questions.

- Receive personalized feedback on responses.

- Access tips and resources tailored to your job search needs.
